

# ISAS NEWS UPDATE JUNE 2010

## LATEST NEWS

### Traffic Light Ready Function

The Traffic Light Ready function of the web-based tool was launched at UKRC 2010 and is now available to all imaging services across the UK. This free, non-obligatory function provides a useful tool in carrying out your initial gap analysis against the ISAS Standard and assessing your readiness for assessment. One login will be provided to each service following a request from the Radiology Services Manager, Clinical Director or equivalent. Please contact us to receive your login today.

### UKRC 2010

We would like to thank those who visited the ISAS stand at UKRC and also those who attended our Early Rise session. We hope we answered all your questions about accreditation. If you do have any further questions, please contact us for further information.

### New ISAS Assessment Manager

We would like to introduce our new Assessment Manager, David Halfpenny, who has recently joined UKAS. David is a qualified radiographer with experience in both the NHS and private sector.

### First Accreditation

All ISAS customers are steadily progressing through the accreditation process and we are expecting the first grant of accreditation in September 2010.

### ISAS Assessor Refresher Training Session

All authorised assessors have been invited to attend a refresher training session which will take place in July. The programme of the day will include using the web-based tool in assessment, assessment of evidence during an on-site visit, role play and more. Assessors will have the opportunity to share their experiences of assessment so far. Refresher training sessions will be held every 9-12 months.

## TRAFFIC LIGHT READY

Contact us today for your free login to self-assess your readiness for accreditation.

## INTERESTED IN APPLYING FOR ACCREDITATION?

UKAS is continuing to process new applications on a first come, first served basis. Further information on how to apply can be found under the **Application** section. If you are interested in applying for accreditation to the ISAS Standard, we would recommend attendance at a free, non-obligatory ISAS Preparatory Workshop in your area and applying for a login to the new Traffic Light Ready function of the web-based tool.

## Delivering Confidence: The Benefits of Imaging Services Accreditation

Please contact us if you would like to receive an ISAS poster, leaflets, or any other promotional material.

## PREPARATORY WORKSHOPS

Wed 6<sup>th</sup> Oct - Manchester  
Wed 24<sup>th</sup> Nov – London

*See the 'Pre-application'  
section for details of how to  
register*

## ISAS ASSESSORS WANTED!

We are actively recruiting for **Technical/Peer & Lay Assessors**. Radiographers and radiologists will receive CPD, as appropriate from their respective professional bodies. For further details of the Assessor role please visit the **'Jobs'** section of the ISAS website, where you will also find future training dates.
