

ISAS NEWS UPDATE MAY 2010

LATEST NEWS

New Assessors Authorised

Following the April ISAS Assessor Residential Training Course, UKAS have authorised eleven new assessors for ISAS. This now brings the total number of authorised assessors to 54.

Traffic Light Self-Assessment Tool

UKAS is developing a new web-based tool to aid preparation for accreditation. The tool will be available free of charge to all and will allow services to self-assess their readiness against the ISAS Standard before formally applying for accreditation. We estimate that this will be ready for launch at UKRC.

UKRC 2010

UKAS will be exhibiting at the event with a dedicated stand. We will also be holding an Early Rise Session which will look at the progress of ISAS one year from the launch with insightful presentations delivered by one early implementer site and one authorised assessor. We would like to invite delegates who want to hear about real-life experiences of participating in accreditation to attend the session.

New ISAS Assessment Manager

We would like to introduce our new Assessment Manager, Lynette Blackhurst, who has recently joined UKAS. Lynette is a qualified radiographer who has worked within the NHS for many years.

ISAS ASSESSORS WANTED!

We are actively recruiting for **Technical/Peer & Lay Assessors**. Radiographers and radiologists will receive CPD, as appropriate from their respective professional bodies. For further details of the Assessor role please visit the '[Jobs](#)' section of the ISAS website, where you will also find future training dates.

INTERESTED IN APPLYING FOR ACCREDITATION?

UKAS is continuing to process new ISAS customer applications on a first come, first served basis. Further information on how to apply can be found under the [Getting Accredited](#) section. If you are interested in applying for accreditation to the ISAS Standard, we would recommend attendance at a free, non-obligatory ISAS Preparatory Workshop in your area.
