LATEST NEWS

New Applications

Apply now to be included in the next cohort of applications and take full advantage of the highly skilled assessment capacity currently available. For further information and the application forms, please visit the 'Application' section or contact imagingcustomerservice@ukas.com should you have any questions.

Minister of State Health Encourages ISAS Accreditation

In response to a parliamentary question, Simon Burns MP, Minister of State Health, England, recognised the RCR and SCoR collaboration to develop ISAS and concluded by stating "The DH supports and encourages organisations to be accredited against the scheme [ISAS]."

Local Preparatory Workshops

The ISAS Team have been busy delivering Preparatory Workshops to Imaging Departments across the UK. If you have already attended a Preparatory Workshop and are considering applying, but require more information please contact us. Based on first come first served basis and subject to availability, we can help by presenting at your site to your senior colleagues and team at a time convenient to you all.

New ISAS Assessment Manager

Our new Assessment Manager, Brenda Worger, is settling into the team well and is keen to get started... "having been through a rigorous training period I am now very much looking forward to having new customers and supporting them to develop their services through the ISAS process" Brenda joined UKAS in July and is a qualified Radiographer with both NHS and private sector experience.

"...Achievement of ISAS confirms that we deliver a high standard of service to our patients It acts as motivation for us to continually improve ... to ensure patients receive the best level of care possible."

Dr. S. Gurney, Calderdale & Huddersfield NHS Foundation Trust

SONOGRAPHERS WANTED! We are actively recruiting for Sonographers to be trained as **Technical/Peer Assessors**. Sonographers will receive CPD, as appropriate. For further details of the Assessor role please visit the '[Jobs](#)' section of the ISAS website.
